

Dear Find Love Safely Staff and Members,

I want to say from the whole shape of my heart and soul how much experiencing the first time speed dating and within making my first steps into the dating world means the universe to me because I will always be grateful to you for allowing me to discover what has become one of the most meaningful and fulfilling experiences I've had meeting new people, making new friends, and experiencing love for the first time in my life.

Ever since I joined Find Love Safely, you've given me a sense of accomplishment, direction, self-worth, and hope for us, not just as a community but to make the World become a better place, to remind us how we are worthy of genuine relationships, what makes all of us special, how there's someone out there for everyone even when we feel alone because we're never alone no matter what, and that it's never too late to create a massive

transformation not only on our lives but to the lives of others with our words, deeds, and love.

The thought of experiencing love and dating made me feel human, alive, seen, normal, and less lonely in the World. Since I've dreamed of this throughout half of my life has given me the chance to realize not only have you changed my life but all of ours because of what an unimaginable impact you've created in which not only will it have us be able to love and value each other but to love ourselves too, and my hope for the future of Find Love Safely is that it's not alone and that there will be more websites like it and for it to have a worldwide presence not to compete but to show our alliance for the exact cause and for me to have a chance to become a leader not just to make my mark as an individual but for us to seize the opportunity to influence the existences of so many people.

I'm thrilled to participate in more speed dating events and others hosted by you, to show how proud I am of you and all of us through what we've become and how it's making so many people the happiest they can be. I hope that everyone finds the one they fall in love with to be with them for a long time, creates new friendships along the way to keep changing the World into a brighter, safer, happier, and less lonely place, and to conclude by thanking its members, staff, Founder and CEO, Mrs. Katherine Gyolai.
